Your ultimate solutions for automation

Company profile

We are privately owned Polish company founded in 1959. Our main activity is control of batch processes at all levels. We specialize in process weighing and electrical integration and commissioning of control systems in many industries as:

- animal feeds,
- precast and ready mix concrete,
- autoclaved cellular concrete,
- glass works,
- bakery and sweets production,
- cosmetics

We employ 35 persons: electrical, mechanical, automation and IT engineers, installation technicians and office workers.

We offer complete solutions and services for medium and big investors from France, Germany, Holland, Poland, Sweden, United Kingdom, Ukraine in four branches:

- electrical (CAD design and manufacturing of control an power cabinets) ,
- customer tailored control systems (design and developing of own software for control & visualisation at PC-based automation applications as well as for standard PLC applications),
- IT systems – client & server SQL based database distributed applications for production management as well as for sales and raw material stock calculation purposes,
- mechanical (CAD design of mechanical devices as weighers, bins, hoppers, tape conveyors manufactured by third-party companies).

We also offer technological consulting as far as technology of concrete, cellular concrete and animal feed technologies are concerned.

ZAKŁAD AUTOMATYKI ZREMB WARSZAWA is authorized distributor of leading British companies constantly increasing selling level:
